Batch benchmark

Deterministic native conversion sample.

Workload	Input	Median	Result
Tiny README	205 B	15.45 ms	Pass
Feature mix	15.1 KB	17.29 ms	Pass
500-row table	33.4 KB	18.66 ms	Pass
Unicode report	28.7 KB	21.12 ms	Pass
Batch corpus	100 files	1.44 ms/file	Pass

Method

Fresh-process timings include startup, parsing, PDF generation, and output-file writing. Results are scoped to the supported native subset and are not a claim of visual equivalence with browser or TeX renderers.

Always reproduce performance claims on the target system and workload.
