Operations report

Period: July 2026
Status: On track

Summary

The release pipeline completed all scheduled exports. Native generation stayed within the expected memory envelope and every PDF passed structural verification.

Metric	Result	Target
Documents	12,480	10,000
Median render	18.4 ms	< 25 ms
Failed exports	0	0

Next actions

1. Expand the deterministic Unicode fixture.
2. Review API pilot requirements.
3. Publish the signed release checksums.

> RayoMD keeps the native path focused: predictable Markdown in, valid PDF out.
